APPAREL

APPAREL

Whether in a gymnasium or park, indoors or outdoors, a sports garment with new functional fibers will significantly enhance comfort during exercise. The ultra-elastic fabrics developed by VICTOR offer soft and flexible characteristics that allow the body to stretch and move freely, even during rigorous exercise. The new generation of breathable fabric absorbs and transmits sweat from the core just like breathing. It also dries quickly, emits heat and takes in cooler outer air to keep the skin dry.

Tournament Series

NEW

T-4000 M/Q/E Men
